MEMO Re: Hearing Results

Student: _____ Grade: _____

From the office of: _____ Date: _____

Dear Parent/Guardian,

Your child was seen today for a hearing screening and results demonstrated a possible hearing loss.

- ☐ Right ear
☐ Left ear
☐ Both ears

Even with a “mild” hearing loss, a child may miss up to half of the spoken information in their environment. It is important to determine your child’s current hearing status in order for him/her to hear and do their best in school.

Please schedule an appointment with a medical audiologist to determine whether or not your child has hearing difficulties.
